LinkedIn: Jana Samiddha | Portfolio: samiddha-portfolio.vercel.app

Education

Midnapore College (Autonomous) Expected 2027
Bachelor of Science, Major in Physics Midnapore, India
Currently in 3rd Year; SGPA: 8.35

Higher Secondary Education (Class XII), WBCHSE: 2024
Overall Score: 86% | Mathematics: 96

Secondary Education (Class X), WBBSE: 2022
Overall Score: 96% | Physical Science: 100, Mathematics: 100

Research Interests

Theoretical High Energy Physics & Astrophysics | Quantum Computing & Information Theory | Condensed Matter Physics (Theoretical)

Relevant Coursework

Quantum Mechanics | Classical Mechanics | Special Relativity | Tensor Analysis | Mathematical Physics | Linear Algebra | Calculus | Laser Physics

Experience

IIT Kharagpur – Translational NanoDevices Lab Aug 2026 – Jul 2027
Bachelor's Thesis Project, under Dr. Shaili Sett, Centre for Interdisciplinary and Convergence Technology Kharagpur, India

Continuing research on MoS₂-based FET phototransistor characterization as a year-long Bachelor's Thesis Project, building on prior internship findings under Dr. Shaili Sett.

IIT Kharagpur – Translational NanoDevices Lab Jun – Jul 2026
Research Intern, under Dr. Shaili Sett, Centre for Interdisciplinary and Convergence Technology Kharagpur, India

Characterized MoS₂-based FET phototransistors via computational analysis, fitting I-V and photocurrent decay data to extract key device parameters (ideality factor, Schottky barrier height, series resistance, EQE, mobility, ION/IOFF ratio).

Gravitation & Cosmology Workshop, P.K. College, Contai 2026
Sponsored by IUCAA, Pune Contai, India

Completed a 3-day workshop on Gravitation and Cosmology, sponsored by the Inter-University Centre for Astronomy and Astrophysics (IUCAA), Pune. Participated in hands-on sessions covering topics in gravitation and cosmology, alongside insightful, thought-provoking talks delivered by eminent physicists from IUCAA, IISER, Central University, and other leading institutions on Cosmology, Black Holes, GW Wave & Lensing, Dark Matter and Dark Energy.

Workshops & Training

- **Online Workshop, QMet, IIT Bombay** – Completed a 2-hour online workshop on Quantum Technology delivered by expert IIT faculty.
- **Winter School, IISc Bengaluru** – Completed a 5-day Winter School organized by the Department of Physics and passed the final evaluation.

- **Quantum Computing and Algorithms Workshop, IIT Kharagpur Research Park** – Hands-on training in quantum circuits, algorithms, and VQE for physical and molecular systems, with exposure to quantum hardware.
- **Photonics Research Laboratory Visit, IIT Kharagpur** – Gained knowledge of laser operation, photolithography, and photonic crystals.
- **Interdisciplinary Workshop on Neuroscience, Brain Mapping, and Cancer Biology** – Two-day workshop developing computational thinking and early biophysics research exposure through physics-based, quantitative analysis of neural systems.
- **Certificate Course, Haldia Government College** – Completed a course conducted by national and international faculty with an A+ grade.

Technical Skills

Languages: Python, SciLab

Typesetting: LaTeX

Other: Problem Solving, Analytical Thinking, Laboratory Instrument Handling, Team Collaboration

Achievements & Extracurriculars

Scholarships 2019 – Present

NMMSE Scholarship Holder (2019–2023); Swami Vivekananda Scholarship Holder (2021–2023, 2024–Present)

Competitive Examinations 2024

Cleared JEE Mains 2024 and appeared for JEE Advanced 2024

Hobbies

Philosophical Thinking, Reading Advanced Physics Texts, Watching Scientific Discussion, Chess, Outdoor Sports, Video Games
